Online Accelerated M.S.Ed. IN INSTRUCTIONAL TECHNOLOGY With K-12 Technology Specialist

TS8 Starting May 2017

Classes meet primarily online with opportunities for face-to-face sessions.

Earn your M.S.Ed. in Instructional Technology while you acquire a K-12 Technology Specialist Entitlement.

Learning

Technology

The program is designed in an accelerated plan. Course work can be completed in just 4 semesters. During each term, students will attend online courses that are grouped together to integrate complimentary topics. Program participants meet online for coursework and attend occasional pre-scheduled, face-to-face meeting each term at NIU campuses. Offering shared experiences and networking opportunities, the cohort format provides professional collaboration and program continuity by working with the same classmates throughout your course of study.
